

# LoCoMo: quality vs. token usage

Main-table comparison · 9 points · 1,540 identical questions · Qwen3.5-9B

† Reconstructed preparation + full logical reader tokens (including reused answers). Embedding tokens excluded.  
≥ Token lower bound; arrow points toward higher cost. Dashed frontier uses a lower-bound coordinate.  
Native pipeline accounting differs; the line joins observed configurations and does not imply interpolated performance.
